

DirectEmployers INSTITUTE

DirectEmployer Institute's (DEI), Science, Technology, Engineering & Mathematics Youth Enhancement Summer Program (STEM YES!) is a comprehensive 65-hour summer program for Central Indiana students in grades 9th -12th who are interested in exploring STEM & Business careers in a work-based environment. Over two weeks, students develop competencies in teamwork, business planning, presentation skills, social etiquette, soft skills and career and college preparation. All this, while learning about the day-to-day work of STEM & business professionals regarding marketing, finance, business development, research and product development, information technology, and human resources.

2017 STEM YES! Summer Program *what to expect:*

Collaboration with peers to acquire greater knowledge of Science, Technology, Engineering and Math (STEM)

Explore Science hands-on in a cadaver lab observing the anatomy and mechanics. Students will participate in an informational panel discussion of medical professionals

Site visits to local fortune 100 companies to explore workplace culture, professionalism as well as experiencing careers real time

Learning opportunities include campus tour, volunteering and serving day, Dress for Success workshop by Berny Martin-Catou & Banana Republic

1st MakerSpace is designed to expose and inspire students in 21st century tools. Facilitated by 1st MakerSpace, students design their own 3D printed objects from an expert designer! Students will learn & apply the engineering and design process as they develop an understanding of 3D printing.

Speakers from STEM related backgrounds, as well as featured speaker, **Anucha Browne** NCAA, Vice President of Women's Basketball Championships

Demo workshops led by professionals, field trips and job shadowing to employers sites such as:

- Eli Lilly and Company
- Salesforce
- Cummins
- Duke Realty
- Dow AgroSciences
- Charles Schwab
- And More...
